OpcDataChangeReceivedCallback Delegate

Namespace: Opc.UaFx.Client
Assemblies: Opc.UaFx.Advanced.dll

Represents the method that will process monitored item data changes published from the server.

C#

```
public delegate void OpcDataChangeReceivedCallback(IEnumerable<OpcDataChangeDataSetItem>
dataChanges);
```

Parameters

`dataChanges` IEnumerable<OpcDataChangeDataSetItem>

A sequence of OpcDataChangeDataSetItem instances with new values of the monitored items the sequence belongs to.
