

Licenser Class

Namespace: Opc.UaFx

Assemblies: Opc.UaFx.Advanced.dll

Defines mechanism required to register the whole OPC UA Framework Advanced as a bundle (which includes client and server functionality).

C#

```
public static class Licenser
```

Inheritance [Object](#) › Licenser

Remarks

It is recommended to set the [LicenseKey](#) in the main entry point of the application. If there is no entry point available set the [LicenseKey](#) property before the first use of the assembly.

Properties

Name	Description
