

OpcPathProbingCollection Members

Namespace: Opc.UaFx

Assemblies: Opc.UaFx.Advanced.dll, Opc.UaFx.Advanced.dll

The [OpcPathProbingCollection](#) type exposes the following members.

Constructors

OpcPathProbingCollection()

Initializes a new instance of the [OpcPathProbingCollection](#) class.

C#

```
public OpcPathProbingCollection()
```

Methods

Evaluate()

Processes the evaluation of all [OpcPathProbing](#) items stored in this [OpcPathProbingCollection](#) using the [Evaluate](#) method of each item and offers the first fulfilled [String](#)-based path evaluation result.

C#

```
public string Evaluate()
```

Returns

[String](#)

The first fulfilled [String](#)-based path evaluation result or a null reference (Nothing in Visual Basic) if there is no [OpcPathProbing](#) item stored in this [OpcPathProbingCollection](#) or all probing mechanisms used by the items failed to evaluate their path information against their different path requirements.
