

IOpcUnregisterNodesService Members

Namespace: Opc.UaFx.Services

Assemblies: Opc.UaFx.Advanced.dll, Opc.UaFx.Advanced.dll

The [IOpcUnregisterNodesService](#) interface defines the following members.

Methods

UnregisterNodes(IEnumerable<OpcUnregisterNode>)

Unregisters one or more nodes to not longer optimize their node access using the specified **commands**.

C#

```
void UnregisterNodes(IEnumerable<OpcUnregisterNode> commands)
```

Parameters

commands [IEnumerable<OpcUnregisterNode>](#)

A sequence of [OpcUnregisterNode](#) instances to process.

Exceptions

[ArgumentNullException](#)

The **commands** sequence or one of its items is a null reference (Nothing in Visual Basic).

[InvalidOperationException](#)

The unregister nodes service is currently not supported, especially using the **commands** specified.

[OpcException](#)

The service execution failed upon different circumstances; for more details see exception details. The following issues can lead to that exception: [BadNothingToDo](#) and [BadTooManyMatches](#).

UnregisterNodes(OpcUnregisterNode[])

Unregisters one or more nodes to not longer optimize their node access using the specified **commands**.

C#

```
void UnregisterNodes(params OpcUnregisterNode[] commands)
```

Parameters

commands [OpcUnregisterNode\[\]](#)

An array of [OpcUnregisterNode](#) instances to process.

Exceptions

ArgumentNullException

The `commands` sequence or one of its items is a null reference (Nothing in Visual Basic).

InvalidOperationException

The unregister nodes service is currently not supported, especially using the `commands` specified.

OpcException

The service execution failed upon different circumstances; for more details see exception details. The following issues can lead to that exception: `BadNothingToDo` and `BadTooManyMatches`.
